## **LANDSCAPE CONSTRUCTION**

Experienced in delivering the most complex hard and soft landscape designs, our landscape construction team has delivered some of the country's most highly specified and detailed schemes.

From concept to completion, every stage is planned and agreed in collaboration with clients to ensure we exceed expectations in terms of workmanship, design compliance, H&S standards, and within budget and timescales.

Our 'right first time' approach underpins our mission to be the commercial landscaper of choice for designers, architects, main contractors and key stakeholders.

## LANDSCAPE MAINTENANCE

Essential to any completed landscape is the subsequent maintenance and nurturing that ensures every scheme reaches its full design potential. It is the care and skill of our professional horticulturalists that sets the standard in commercial landscaping.

Our maintenance team takes great pride in ensuring the ethos of our clients is visible to everyone who accesses the spaces we care for. Whether built by us, or not, it is our duty and passion to ensure that these spaces are always looking their best.

## **SUSTAINABILITY**

Our environment and management systems aim to exceed the expectations set out in the **ISO14001** objectives.

We do this by continually reviewing and improving our environmental performance, adhering to strict waste and recycling procedures that aim to rejuvenate and protect local wildlife through various community projects that align with our core values.

## COMMUNITY

Contributing to local and international initiatives is a vital part of our mission statement to improve the community.

Our engagement with charitable and community-centred activities gives us a rich perspective on the important roles we all play in the wider society.
